For customers: scan the code to check the live price.
qintar.app/en/gold-price-today

3 Bars: usual fee worked out, you write the rest

Weight (g)	Fee per g	Fee (x weight)	14% VAT on the fee	Gold value (24K)	Indicative price
1	210	210.00	29.40		
2.5	150	375.00	52.50		
5	100	500.00	70.00		
10	90	900.00	126.00		
20	90	1,800.00	252.00		
31.1	85	2,643.50	370.09		
50	85	4,250.00	595.00		
100	85	8,500.00	1,190.00		

Example A 5 g bar: gold value 35,340.00 (24K sell on the board 7,068) + fee 500.00 + VAT 70.00 = **EGP 35,910**.

Usual figures when this sheet was made (3 Nov 2026). Today's figure is in the calculators: qintar.app/en/tools/

4 How to use the board

1. Fill in the prices from qintar.app/en/gold-price-today and update them every day.
2. Pound = 8 × the 21K sell price. Half = 4 g. Quarter = 2 g.
3. Bar price = weight × 24K sell price + fee + VAT on the fee.
4. Your premium or discount: write it in the box and apply it the same way to every price.

Prices and calculations are for information only. They are not financial advice, an offer to buy or sell, or a religious ruling. Check tax matters with your accountant.
